Manage student and staff printing the smart way

KYOCERA

Partner with a total solutions provider to reduce costs and implement smarter print environment

Kyocera's cutting-edge technology ensures that teachers, students and administrative staff can print, scan and share documents quickly and securely.

Our holistic approach is dedicated to providing real solutions for the digital age. Our blend of expertise and innovative technology provides you with the tools to take your institution to the next level. Partner with Kyocera and transform your institution quickly and efficiently with our hardware, software and range of services.

The first step towards becoming an optimised education provider is to equip your staff with the right infrastructure to reduce print costs and digitise your administration documents. The next step is to connect them wherever they are, so they can access and share data with students and collaborators in a controlled way. Only then can its value be unlocked to optimise your print environment and drive successful outcomes.

Kyocera has the know-how to make this happen for you now, as well as into the future. Our ICT service providers are here to help you continually optimise your processes, reduce cyber security threats and ensure you're always at the forefront of new technological developments that improve your institution's operations.

Transform your educational institution by partnering with a total solutions provider. Contact us today to arrange a free consultation.

We're with you **every step** of the way

Optimise your processes

Equip your team

ICT Services

Connect your people

Award winning devices

With an extensive range of devices that feature long-life components and fast, intelligent scanning capabilities, we will find a device to help you work smarter.

Extensive on-site warranty

For peace of mind, our warranties offer you our unique on-site protection* so you do not have to waste time sending a device back to base - our technicians will come to you!

Tailored solutions to optimise modern education

Encourage and support students, teachers and school department collaboration with cloud-based solutions and share information like never before.

Local support and dedicated account management

With our local team of highly trained Help-desk Agents and Service Engineers you can be confident of local support whenever you need it.

Innovative solutions for the education sector

As educational institutions invest in leading technology and process efficiencies, we're seeing teachers and administrative staff given the freedom to do what they do best - to direct their focus on advancing student outcomes.

At Kyocera, we empower education providers to achieve this through innovative technology solutions that help reduce costs, secure data and increase efficiency. Our clients gain the tools they need to quickly and securely access important information, no matter where they are.

With digital solutions at their fingertips, educational providers are not only improving the level of commitment to their staff and students, but they're also gaining a competitive edge within their sector.

Support sustainable printing practices with low energy devices and reduce e-waste with our ECOSYS devices.

Increase administration efficiency and accuracy through Kyocera's automated processing software.

Manage your print fleet and gain visibility of all your printing with Kyocera Fleet Services. This remote monitoring solution saves both time and money, and helps to reduce device downtime.

Never face extended device downtime again thanks to our unique warranty that offers on-site protection, where our technicians will come to you*.

Choose a partner that can help you manage student and staff printing the smart way

Digitalise and mobilise your print in a controlled and secure environment

Reduce your printing costs with our unique Three Tier Colour System and only pay for the colour you use

Secure highly sensitive student information and restrict access to approved staff only

Control budgets with enforced user policy settings and cost recovery solutions

Support sustainable printing practices with low energy devices and reduce eWaste with our ECOSYS devices

Find a device that is fit for purpose. Kyocera offers a large range of print devices from desktops, Multifunctional Devices, large scale printing options and even 3D printing

TASKalfa **multifunction** devices are **multi-talented**

Our TASKalfa Multifunction Devices are specifically designed for longevity, minimum cost of ownership and maximum performance. Thanks to components unique to Kyocera, our devices require significantly less maintenance and far fewer components to maintain.

The TASKalfa difference

- Achieve outstanding print quality, colour consistency and contrast with our advanced toner technology
- Reduced printing costs and superior reliability thanks to Kyocera's unique long-life drum technology
- Embedded cloud connectivity and security features
- An extensive variety of finishing, scanning and high volume document management options
- Superb environmental credentials due to ultra-low power consumption

ECOSYS means less waste, long-life and low cost

No matter where your staff are working, there is an ECOSYS device to help them work smarter. With our extensive range, you will find the perfect device for the busiest of staff rooms or the most productive administration office.

Our ECOSYS technology aligns with your sustainability goals.

Sustainability has been and always will be a staple in our ECOSYS devices. Our ECOSYS printers and multifunction devices were the first cartridge-free system for laser printing. This means that no drum replacement is necessary when the toner runs out of ink resulting in easier maintenance and less e-waste.

ECOSYS is designed for productivity, no matter where.

- Unbelievably low running costs
- Embedded security features
- Smaller compact devices & easy device set up
- Comprehensive warranty & support

When sustainability matters, choose the right business partner

Reduce your environmental impact with Kyocera

Kyocera focuses on ecological thinking in every step of the process, from material procurement to manufacturing through to end-of-life and recycling. The result is groundbreaking products that can reduce your e-waste and when combined with our certified recycling partner, can redirect over 90% of e-waste material away from landfills.

Environmentally focused Technology

Kyocera has an extensive lineup of devices that are designed differently from the rest of the market and utilise cartridge-only technology. When it is time to replace the Toner in a Kyocera Printer, users only replace the Toner cartridge, whilst on competitor's products, users need to replace the whole process unit - toner, drum, developer, charger and roller. Kyocera's TASKalfa range feature larger capacity toner cartridges and longer life drums which are made from amorphous silicon and can deliver a life-cycle of up to 600,000 pages.

The same technology that makes Kyocera ECOSYS printers cheaper to run also reduces their impact on the environment. Waste is drastically reduced by the cartridge free printing system. Instead of a cartridge comprising of over 100 different materials, the ECOSYS toner cassette is made of a single substance and ID coded for easy recycling.

Kyocera Corporation named in 100 Most Sustainably Managed Companies in the World

Collated by the Wall Street Journal's environment, social and governance research division. More than 5,500 publicly traded businesses were analysed to produce its rankings of the most sustainable managed companies in the world. Kyocera Corporation was named number 46 and demonstrates our ongoing commitment to working towards a more sustainable world and positive impact of our actions.

Reduce your printing costs with our Tiered Colour System

Kyocera's unique Tiered Colour System is the solution you've been looking for! Only pay for the colour you use.

Works seamlessly with Kyocera's TASKalfa colour A3 devices - so you can start saving straight away.

Print impactful documents with a splash of colour or vibrant full coverage to get your message across at a lower cost per page, based on tiered billing.
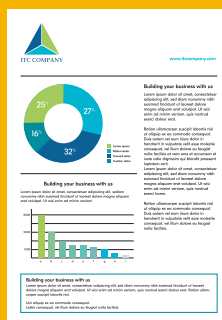

Reduce the cost of your colour printing by evaluating whether you are printing a simple text document with a colour logo or a full-colour document.

SIMPLE COLOUR

(Low Coverage)

A colour company logo on black and white correspondence.

BUSINESS COLOUR

(Medium Coverage)

A report that contains colourful charts and graphs with text.

CREATIVE COLOUR

(High Coverage)

Colour rich collateral such as brochures and presentations.

Our unique Tiered Colour System automatically determines the amount of colour used on each page

Besides the traditional colour and black and white counters, Kyocera's TASKalfa devices also have three additional counters which calculates the toner coverage of printed and copied pages. This then allows pages to be categorised in a tiered pricing structure instead of charged at one higher flat rate - this could save you thousands over the life of your printer.

Kyocera Document Solutions has championed innovative technology for more than 60 years. We enable our customers to turn information into knowledge, excel at learning and surpass others.

With professional expertise and a culture of empathetic partnership, we help organisations put knowledge to work to drive change.

*Please refer to the individual models warranty specifications concerning on-site warranty qualification and duration. On-site warranty is subject to a 50km radius from an authorised service centre.
